SUMMARY:

Web and mobile application developer with a year of experience building user-focused solutions using Next.js, Node.js, and React Native.

EXPERIENCE:

Full Stack Intern - Memighty Inventions Pvt. Ltd.

December 2024 - Present

- Developed and tested a **full-stack** module in a **React-based** web app; designed and managed the **PostgreSQL** database for the module.
- Improved an **existing React Native** app by **caching** data for **faster load times**, fixing bugs, and adding a **Todo Ticket Management** feature for internal use.
- Built and deployed a real-time **Chat App** using **React Native** and **Socket.IO**, enabling in-company communication; successfully **published** both apps on the **Play Store**.

Software Developer (Intern) - ALGOBRAIN AI

May 2024 - July 2025

- Designed and developed cross-platform **Flutter** interfaces for a live project, ensuring seamless navigation **across devices** and addressing software issues to improve reliability.
- Participated in **client meetings** to gather **requirements** and collaborated with the team to implement **UI enhancements**, contributing to an efficient and productive workflow.

PROJECTS:

PsychoCoders | [\[Live\]](#) | [\[GitHub\]](#) | Individual

March 2024

Tech Stack: React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB

- MERN** web app for solving coding problems in **C++**, **Java**, and **Python**.
- Built with **React.js**, **Vite**, **Tailwind CSS**, and Monaco Editor for smooth coding experience.
- Used **Node.js**, **Express.js**, and **MongoDB**; integrated JDoodle API for real-time code execution.
- Displays user stats: **languages used**, latest **correct solutions** with dates, and **problem difficulty** breakdown.

WebWeaver | [\[Live\]](#) | [\[GitHub\]](#) | Group

October 2024

Tech Stack: Next.js, MongoDB, TypeScript, Zustand, Cloundinary, Tailwind CSS

- Creating Web Weaver, a **no-code website builder** aimed at enabling users to easily design and customize single-page websites.
- The platform provides a variety of **editable templates**, perfectly suited for **personal portfolios**, **business showcases**, and other needs.
- Users can **modify** different elements of the templates, such as **font styles**, **text colors**, **sizes**, **images**, and more, to craft a website tailored to their personal or business requirements.

TECHNICAL-SKILLS:

- Front-end:** HTML5, CSS3, Next.js, React Native, Shadcn/UI, Tailwind CSS
- Back-end:** Node.js, Express.js, Zod
- Database:** MySQL, PostgreSQL, MongoDB
- Languages:** JavaScript, TypeScript
- Tools:** GitHub, Vercel, EAS (Expo Application Services), Figma

EDUCATION:

Uka Tarsadia University

2021-2025

Bachelor of Technology - BTech, Information Technology

CGPA: 8.85 / 10 (First D.)
